Maximum Marks	2 Marks

Problem statement(ps)	I am (customer)	I'm Trying to	But	Because	which makes me feel
PS-1	A lot of people are not used to the parking management system . As a result, it may be difficult for them to make use of, thereby causing further complications during parking	for many users who are not familiar with the parking management system, it could be a little confusing for them to operate first. This problem,can be overcome with familiarity and a little education. If they ask questions on the operation procedures and are educated on the advantages that come with making use of the system, they get the hang of it with time	Making use of the parking management system has a lot of advantages for many of the other parties involved. But then, it comes with some disadvantages are reasons why some people have had second thoughts about making use of the parking management system.	The cost of having a sound,working parking management is usually high. This is because of the various components such as the statistical feature.	Frustrated
PS-2	For the parking management system to be used, there is a need for a level of knowledge about the building. What happens if that is not available? The system cannot be installed, or installation without knowledge of building structure may lead to dangers and irregularities.	Dealing with this quite easy as the building's blueprint may be used, or the manager could decide to map out the necessary parts of the building. Which deals with the parking area.	Making use of the parking management system has a lot of advantages for many of the other parties involved. But then, it comes with some disadvantages are reasons why some people have had second thoughts about making use of the parking management system. Nonetheless, these disadvantages are not ones that cannot be handled at any time.	The system is automated, however, it still requires several regular maintenances from the company. This to ensure that the system is working perfectly and that nothing has gone wrong.	Frustrated miro
